

STROHBÖID

Pavilion

Sustainable eye catcher for more space outdoors

With the weather- and storm-resistant outdoor pavilion you can create atmospheric and CO₂-neutral feel-good rooms with 70m² to 330m². Due to the flexible equipment variants, a pleasant room climate during summer and winter is guaranteed. This way you can expand your capacities all year round, in order to offer your guests unique and natural experiences.

Product features

The STROHBÖID pavilion convinces not only with its enormous stability and weather resistance, but also with unique and aesthetically pleasing design.

Waterproof & durable
