

Pavillon 70 BASIC

Scale: 1:100 | A3
Date: 06.03.2023
Weight: 1020 kg (1,12 US ton)
Packing size: 13 m x 2,2 m x 2,4 m
(42'-8" x 7'-3" x 7'-11")

FURTHER INFORMATION AND CONDITIONS:

- The surfaces of the construction are treated with LIGNEA RESEDA exterior wood oil special mixture, depending on the color, either with a mixing ratio of 12% or 4%. They can be re-oiled if necessary. Wooden elements exposed to the weather and the floor are oiled with 12%, the remaining elements with 4%. Wooden elements that are exposed to the weather should be re-oiled annually for longer durability.
- If the translucent membrane is damaged due to excessive mechanical stress (vandalism, hurricane), it can be repaired with Tesa-ultra-power-clear repair tape.
- The construction is calculated for a snow load of 20 kg/m² (4 lb / ft²) and wind speeds of up to 100 km/h (91 ft / s). For an (additional fee), constructive snow load reinforcements of up to 200 kg/m² (40 lb / ft²) and foundations designed for higher wind speeds are available for all products.
- In case the translucent membrane gets dirty, it can be cleaned carefully either with a telescopic brush or/and cloth with water. If heavily stained, clean it with a PVC (membrane) cleaner.
Make sure not to damage the surface coating (no high-pressure cleaner, etc.)
